Municipal Hall Insurance.

As the time is now rapidly approaching for the annual elections in connection with the Municipal District, which elections by the way are now held in February, ratepayers generally should take matters under consideration. Not the least important of these perhaps is municipal hall insurance. We are informed that this matter will be placed before the electors of both the Bow Island and Forty-Mile municipal districts. The matter obviously is of such importance that it could very well furnish a subject for discussion at the meetings of our local U. F. A's.

It will be the duty of the Council of each of the above Municipal Districts to submit a by-law to the electors at the next election, and it is therefore necessary if the electors are to vote intelligently for him to acquaint himself with the Hall Insurance Act so far as it is possible.

The benefits of the Municipal Hall Insurance Act are confined to Rural Municipalities since, according to the law, they only have the authority to levy a tax for this purpose. The Local Improvement Districts are not possible beneficiaries of the scheme as they are organized, but may at any time change their organization into that of a Rural Municipality. The prime objections to making this change have been practically removed by the 1918 amendments to the Rural Municipality Act, and the time is certainly ripe for the growing-up parts of the province to unite themselves in this eminently practical co-operative plan.

Provision is made for admission to the District by either of two ways. First: the Council of the Rural Municipality on its own initiative at any time may pass a by-law providing for union with the Hall Insurance District. Before this by-law is finally passed, it must be submitted to the ratepayers for their approval.

Second: A petition for a by-law may be presented to the Council signed by six or less than twenty-five per cent of the resident ratepayers of the municipality. This petition must be presented to the Council before the first day of October in any year, and the Council soon as possible thereafter give the by-law its first and second readings, and shall then submit the by-law to be voted upon at the next ensuing annual election. In case any such by-law receives the assent of a majority of the electors voting thereon, the Council shall on or before the tenth day of January next after such voting finally pass the said by-law. In either case the secretary-treasurer of the municipality must then send a report of the proceedings to the Minister of Municipal Affairs, who admits the municipality to the District on terms to be prescribed by the Board.

1919 Wheat Price.

Ottawa, Ont., Dec. 5.—The question of the price of wheat for the crop of 1919 has been giving the government considerable anxiety. In the United States the crop has been guaranteed at \$2.25. This was done before the war ended, and it is realized that the United States government is very likely to be compelled to foot a loss of half a billion dollars. If Canada followed the same procedure there might be a loss of fully two hundred million dollars. It was felt by the government that it was not just to the non-agricultural portion of the community to run the risk of such a loss.

A representative of the Council of Agriculture was sent from the Winnipeg convention to consult the government on the subject, and it was agreed that it was not fair to ask for a guarantee. The government offered to assist in every possible way in securing an advance sale for next year's crop at a fixed price. It was decided to send to England representatives of the Council of Agriculture and the government asked the Council to nominate delegates.

As soon as these are named they will leave at once for England where, with the assistance of Sir Robert Borden and Dr. J. W. Robertson, the representative of the department of agriculture with the prime minister's party, they will endeavor to make arrangements for a sale of the crop to the allied governments. The Canadian government will advance the necessary credit and will act as intermediary. It is hoped that arrangements will be completed which will guarantee a good price for next year's crop without the danger of a loss to the country of several hundred million dollars.

A Big Vote.

Municipal Elections Excite Considerable Interest.

The municipal elections held in Bow Island on Monday last resulted, so far as the Town Council was concerned, pretty much according to general expectation. Messrs. Allen, Bratton and Hurd captured by far the lion's share of the ballots. In fact, to anyone sitting in the Council Chamber during the counting of the votes their names were recorded with unflinching and almost monotonous regularity. The big vote for these three would appear to indicate that some very successful work had been put in by their supporters. The total vote polled for the Town Council was 123—the highest so far recorded.

The voting for School Trustees also resulted in a record being established, a total of 141 ballots being placed in the box. Additional interest was lent to this contest by the entry of two candidates from the country, viz., Messrs. H. I. Schenck and A. Miller, both of whom succeeded in their ambition. The other candidate elected was W. A. Bateman, between whom and L. Ferne there was a close fight, the latter at one time being twenty ahead. Mr. Bateman had the pleasure if not the fortune, of having five ballots especially marked for his benefit, but as the Act does not admit of "plumpers" being recorded his friends lost their vote.

The official figures for the election were announced as follows:—

TOWN COUNCIL.
J. M. Bratton 94
Allen 50
J. W. Hurd 18
T. H. Holman 46
F. W. Brown 43
A. W. Fuller 31

SCHOOL TRUSTEES.
A. Miller 116
H. I. Schenck 100
W. A. Bateman 81
L. Ferne 76
F. W. Brown 30

To the Ratepayers of Bow Island S.D. No. 1883.

Ladies and Gentlemen,—

I desire to extend my sincere thanks for the honor you have conferred upon me in electing me as one of your School Trustees.

I appreciate your confidence and I will do my best to deserve it.

Yours respectfully,
H. I. Schenck.

To the Ratepayers of Bow Island S.D. No. 1883.

Ladies and Gentlemen,—

I beg to return my sincere thanks for the honor you have conferred upon me in electing me to the above Board and I wish to assure you that I will do my best to earn the approval of every ratepayer without distinction.

Respectfully Yours,
Alfred Miller.

To the Ratepayers of Bow Island S.D. No. 1883.

Ladies and Gentlemen,—

Kindly allow me to offer you my sincere thanks for the really splendid support given me on Monday last. In appreciation I can only say that I will in the future as in the past endeavor to do my utmost to serve the best interests of every ratepayer.

Five voters in voting marked their ballot for me only, and according to the Act this spoils the ballot. Although the vote was lost I wish to say that their kindly intention to measure my return is realized and thoroughly appreciated.

Yours gratefully,
W. A. Bateman.

The voting on Monday for the Town Council did not altogether surprise one. That the interest was keen, however, was amply shown by the number of ballots cast. Really the only feature especially worthy of mention is the election of Geo. H. Allen, whose successful election now gives the south a representative. The ratepayers living that side of the track have long considered it a grievance that they were not represented on the Town Council, and the Review is glad to see their grievance now remedied.

The other two candidates elected were J. M. Bratton and J. W. Hurd, both of whom have seen some years of service upon the Council, and with their old colleagues one is compelled to wish them a successful term.

That there may have been a little soreness in a certain quarter over the election is possible, but the defeated candidates will be sure equally with the ratepayers watch with interest the work of our newly-elected representatives and hope that the best interests of the town will have their undivided attention.

One cannot be oblivious to the fact that recently there has been a great deal too much personal feeling displayed over certain matters and this has resulted in a lot of unpleasantness.

To have a progressive community the residents must be united, and whole-hearted co-operation should be given the Town Council during the year just approaching.

The election of School Trustees evidently created this year interest above the ordinary. For one thing the country ratepayers were determined to be represented upon the Board and their desire was gratified to the extent of two representatives.

The new Board will have many difficult problems before them, not the least of which will be the question of bringing the scholars in from the south.

Whatever they do, however, we trust they will keep the ratepayers apprised of every move, and take the district in their confidence before any considerable sum of public money is expended.

Our favorable report published in last week's issue regarding the influenza still holds good, the town being entirely free. There are, however, still a few cases in the country which makes the present restrictions being removed at any rate for a time inadvisable.

Winnifred.

Queens Dams is visiting at Medicine Hat.

The ladies of the U.F.W.A. will hold their annual meeting on Saturday, December 14th. Election of officers. All members please attend.

Mr. and Mrs. Alex. Smith received a telegram on December 5th officially announcing their son Robert wounded in France. How serious has not been learned.

Frank Clausen who has been working at Acme, Alta., returned on Monday. Frank thinks the land around Acme is famous and says there are some very thriving farmers there.

Mrs. John Christopherson and family have moved to Medicine Hat for the winter months.

Rev. Woods is able to sit up after his spell of influenza. His daughter June is still confined to her bed and is very sick.

Rev. Mr. Shearer of Calgary was a visitor in Winnifred on Tuesday, also Rev. Mr. Shannon came to see Rev. Wood and family.

Geo. Schieb returned from B.C. where he was thinking he would spend the winter. He only stayed, however, a short time before he was taken sick and hastened home. While he was there Mat Dunningan was also taken sick with influenza and expired within five days, the body being shipped to Quebec. Mr. Dunningan was well known in Winnifred, he having lived here for some time. Our deepest sympathy is extended to his people.

The Red Cross is having a dance on Friday, December 13th. It doesn't seem just the proper thing during this epidemic and with deaths and so much sickness around. How the residents can enjoy dancing under these circumstances it is hard to conceive.

Mrs. Howard Platt is leaving on December 14th to join her husband at Calgary, where Mr. Platt has taken a position with the United Grain Growers.

WAR-SAVINGS STAMPS

The Canadian Government offers interest-bearing War-Savings Stamps.

Issue of 1919—Payable Jan. 1, 1924

ORDER-IN-COUNCIL P. C. No. 2462 authorizes the issue of War-Savings Stamps for the purpose of assisting in the financing of Government expenditures.

As Sir Thomas White, Minister of Finance, points out, W.S.S. will provide "an excellent investment for small savings and a strong incentive to every-day economy."

\$5.00 for \$4.00

Until January 31, 1919, War-Savings Stamps will be sold by all Money-Order Post Offices, Banks, and other authorized Agencies, for \$5.00 each, and on January 1st, 1924, Canada will pay \$4.00 each for them.

Registration Against Loss

A Certificate is provided for the purchaser of a W.S.S. On the certificate are spaces to which 10 W.S.S. may be affixed.

A certificate bearing one or more W.S.S. may be registered at any Money-Order Post Office, fully protecting the owner against loss by fire, burglary or other cause.

The Certificate also shows the Cash Surrender Value of W.S.S. at various dates before maturity.

Facts for Health Seekers To Ponder Over

Nearly every disease can be traced to clogged or inactive stomach, liver or kidneys. Indigestion, biliousness, flatulency and insomnia all originate from this cause. Keep your organs in working order and you will have continuous good health. No case was ever treated with Dr. Hamilton's Pills and not cured; their record is one of marvellous success. Dr. Hamilton's Pills are very mild, yet they cleanse the bowels promptly and establish healthy regularity. You'll eat right, digest well, sleep soundly, feel like new after using Dr. Hamilton's Pills—one a dose—25¢ a box everywhere. Be sure you get the genuine Dr. Hamilton's Pills, in a yellow box always.

The British Way

Germany Will Have Opportunity to Institute Compromise

The order issued by General Rawlinson to the men of the fourth army, which will participate in the occupation of the Rhine district, draws attention to the fact that some part of the civil population of Germany will now have an opportunity to institute compromise between British and German methods of warfare which cannot fail to be instructive and which they should find as profitable as they must be humiliating. The civilians of Germany were not in ignorance of the acts of frightful ferocity perpetrated by the German soldiery in Belgium and northern France. Indicted by them in command of the German army, whose every movement had the official approval of the German press, those acts were eloquent of the attitude of the German nation. It was no surprise that Germany made the will to victory overriding every thought of moral action.

It is not for us to argue that Germany could not complain if now they suffered something of that which is indicated; it is not so that we are indicted by Britishers and by those who are associated with them as allies in this struggle. There is reason to believe that the German themselves know that such orders as those by which the German soldiery were incited to acts of barbarism could in no conceivable circumstances be issued to British soldiers. Unlike the army of Germany—the British army had a fair name to sustain General Rawlinson's order to the fourth army is no more than a warning to the men of that army that nothing must be done which, even by its appearance, would reflect upon that fair name. He says: "I ask you men from all parts of the empire when on German territory to show the world that British soldiers, unlike those of Germany, do not make war against women and children. I rely upon your sustaining the army's fair name."

General Rawlinson speaks here for the people of the empire who share with him proudly the certainty that British troops could not be brought to imitate German violence and brutality.—*Manitoba Free Press.*

Canada Fed the Guns

Dominion Munition Shops Played Big Part in Crushing the Hun

Figures compiled recently show that the Canadian production of munitions supplied a very substantial part of the material used by the British and Canadian armies in the field during the closing months of hostilities.

Taking the British and Canadian production of munitions together and dealing with the six-month period ending last September, Canadian plants produced one quarter of the total production of nitric acid.

The plant at Trenton, Ont., established by the imperial munitions board, was the second largest producer of its kind. In trainshot only Canadian plants produced 10 per cent. of the whole production and included the fourth largest producer.

Jerits Kay Kaiser Is Responsible Newcastle, Eng. — In a speech delivered here, Premier Lloyd George, dealing with the question of the responsibility for the invasion of Belgium, said the British government had consulted some of the greatest jurists of the kingdom, and that they unanimously and definitely laid the blame at the conclusion that in their judgment the former German emperor was guilty of an indictable offence for which he ought to be held responsible.

U. S. President Has No Liberty of King

Marshall Everett in His Book "Etiquette of Today" Shows How

President Is Hampered

In connection with the announced visit of President Wilson to Europe to be present at the peace negotiations, Americans in the city have been asking a pertinent question based on the unwritten law that the president of the United States cannot leave the country during his term of office.

Marshall Everett in his book, "Etiquette of Today," copyrighted in 1902 and 1903, has this to say on the point. The book was published during the term of President Roosevelt.

"One of the unwritten laws which governs the president is that he cannot leave the country. But two presidents have been accused of violating that law. The first was President Arthur. He was accused of crossing into Canada while on a hunting trip.

"This rule does not apply to any official but the president; kings and queens are not bound so tightly as the president of the U.S.A."

"President Roosevelt cannot go away. He cannot delegate his powers to another person. The so-called 'unwritten laws' that are so powerful in their effect.

"A foreign ship in port is foreign territory, and the president may have his foot on board. This ancient ruling comes down to us from George Washington. The president cannot carry a personal card. One card does for all presidents."

"He cannot accept valuable gifts of any kind from anybody. All gifts presented by various other nations to American presidents generally find their way to the National Museum—*Exigite Leader.*

Magicians of the Pen

Dumas Has Record for Speed in Turning Out Books

While W. W. Jacobs confesses that the often said, pen in hand, a whole morning without putting a solitary word on paper, Sir Arthur Conan Doyle has written a story of 12,000 words without once leaving his desk. Even such a pains-taking writer as the late R. L. Stevenson had his periods of lightning work in which he completed his famous "Jekyll and Hyde" story within seven days, and Hall Caine wrote the first and last lines of his "Life of Cleopatra" in three weeks. While Sir J. M. Barrie wrote five or six hundred words a "good day's work." H. G. Wells has often written 10,000 words between breakfast and bed and Mrs. L. T. Meade has produced 20,000 words in a busy day.

The late Andrew Lang, when in the mood, has more than once written 5,000 words of a book between breakfast and 2 late luncheon, and it is said that S. R. Crockett wrote the last half of "The Stickler Minister" in forty hours.

But all these feats of rapid authorship, marvellous as they are, were quite eclipsed by the older Dumas, who, in one phenomenal year, actually turned out volumes at the rate of one a week.

Must Pay Bill
London — German states what ever their form, must pay the bill Germany as a whole must be held responsible for the consequences of the war, says the Westminster Gazette, in discussing the situation that has developed in Germany.

The newspaper admits that the allies may be wrong in the legal entity of Germany, but it has undergone a complete change and that Austria, it may burst in fragments before negotiations are completed.

British Losers Total 1,000,000
London — It is officially announced that during the war the forces of Great Britain actually lost nearly 1,000,000 men killed or dead through various causes.

Recently it was stated that the British losses totaled 428,704, but this number did not take into consideration men who were reported missing who actually lost their lives, but of whose there is no trace, nor did it account for men who died at the front from sickness.

One he must be hatched with another, or it will soon rain through Owen.

Little things console us, because the things afflict us.—*Nasral.*

Honor Victorious Army

Everywhere the Canadians are Effusively Welcomed by Long Suffering Belgians

With the Canadian Forces — The greatest asset of the Canadian corps is the esprit de corps pervading it. This spirit has given it cohesion, striking power and mutual trust and confidence that has carried it successfully through the severest trials and under often discouraging conditions to final success.

This loyalty of "One for all, and all for one," sets the corps before individuals or units. It is in the long run most impressive all those who come into relation with the Canadian corps. The Canadians whose duty forces them to remain behind will nevertheless participate in spirit in the triumph march to the Rhine. Their desert has not been less. They have proved their valor and tenacity. They share in the honor common to all and are content in the knowledge that their deeds have rebounded to the credit of their beloved country.

The Belgian people of the liberated areas are not one whit behind the French in welcoming our men. Every village is gaily decorated in honor of the brave allies. Nothing is too good for Canadian soldiers. Orders are issued that no soldier must accept no food from civilians because these are terribly short of supplies and must remain loyal to the British cause.

The city of Mons has renamed the Place de la Beaurie, where the Canadians entered, the Place du Canada, thus following the example of Valenciennes.

Transfer Troops From Burning Shipyards

Story of Bravery and Fortitude During War Comes to Light

Boston. — That 2800 troops were safely transferred from the transport "Henderson" to the "Henderson" in the harbor zone during the night of July 2, when fire which had burned for several days in the steamer's hold threatened the safety of the ship, was made known in a communication from Secretary of the Navy's Daniel C. Ruggles to the officers of this city, one of the officers who preserved order during the transfer.

When the order for the transfer was given the men stood at attention on the deck of the Henderson. Owing to the danger from submarines no lights were burning, and hard rain and choppy sea increased the danger. The transfer continued from 6 o'clock at night until six o'clock the following morning. "Not a man was lost."

The destroyed made several trips to another transport which had been held in the vicinity to receive the men.

When all but the crew and a number of officers had left the Henderson, the put back to port, and although listing badly, reached Philadelphia.

Sunday Battles

Some of Fiercest Battles in Past Had Been Fought on Sabbath

Some of the fiercest engagements of the war just ended were fought on Sunday. The fiercest of the battles in the War of the Roses was actually fought on Palm Sunday. This was the battle of Tewkesbury in 1471, and ten years later the battle of Marston was fought on Easter Sunday. Ramillies was fought on Whit Sunday, 1706.

Both Bull Run and Shiloh, in the American Civil war, were fought on Sunday. It was on Sunday that Wellington issued that famous order, "Ciudad Rodrigo must be carried by assault this evening."

A glad Sunday for the British empire was that "lost Sabbath" when Wellington defeated Napoleon at Waterloo in the vain attempt on the part of one man to dominate the world.

Montreal Daily Star

WHAT SOLDIERS WANT.

A suggestion to those who are sending gifts to soldiers overseas comes from L. C. G. Kellaway, of the First Division, in a cable received by the Star in Montreal. He says "The men want playing cards and chewing tobacco."

Industries Easy To Transform

Will Not Find It Difficult to Turn to Ways of Peace in Manufacturing

London. — F. G. Kellaway, parliamentary under secretary to the ministry of munitions, in a statement regarding the turning over of munition factories to the production of peace materials, says the problem facing the British manufacturers is not nearly so difficult as that which confronted them when they were asked to turn from peace to war production.

Three munition trusts at Leicester, Hereford and Nottingham and three at Loughborough are taking up the manufacture of history needles, imported from Germany before the war, Mr. Kellaway continues. Another Leicester munition plant will produce hair-spring fittings, also formerly imported from Germany. There are several cases where manufacturers who were producing airplane motors will make engines for motor cars, while one concern which made shells is turning to the manufacture of shoe machinery.

At Newcastle-on-Tyne an airplane firm will take up the manufacture of furniture and another in use 5,000 persons, while another factory in the same town will change from the making of guns to the building of locomotives—a new industry which will give employment to 5,000 persons. A firm at Burnley, which was

War Disasters for Turkey

Has Made Enemies of Her Former Friends

"The last war was the most disastrous in the history of Turkey, not because she was beaten, but because it made enemies of nations naturally our friends," declared Abdul Medjid Efendi, heir to the Ottoman throne.

"The present Sultan and myself," he continued, "denounced the proposal that Turkey enter the war. Mohammed V., who was then reigning, showed weakness before a clique of adventurers like Talaat Bey and Enver Pasha, then cabinet ministers and now fugitives, whom Germany had led with dreams of power."

"I am more ashamed of the Armenian atrocities committed during the war than of anything in our history, but I must insist that they were against the will of the present Sultan and the nation as a whole. They were instigated by unpatriotic ministers who were guaranteed in their places by their services to German militarism. The fanaticism of remote tribes in their dislike for the neighbors and the brutality of provincial officers served as the medium, while the censured press here concealed the facts from the public. The members

of the imperial family tried to make use of their prestige against this, but were imprisoned in the palace.

"Of the future, I can say we must have foreign assistance as the country is exhausted. We prefer to deal with one nation, because the difficulties of international control have been shown elsewhere, but we welcome any control not menacing the sovereignty of the Caliph."

Under Allied Protection

London. A dispatch to the Central News from Stockholm says it is reported negotiations entered into with Russian representatives have resulted in the formation of an all-Russian government under the protection of the entente and supported by a volunteer army.

GIVE USEFUL GIFTS

EVERYBODY prefers a gift that is really useful, to some pretty but purposeless novelty. So that it is easy to be patriotic and comply with the Government's earnest plea—Give Useful Gifts.

This applies equally whether you are buying the gift for yourself—as a "treat" after the harvesting—for your friend or relative who may be "over there" for months yet, or for the folks here at home.

The GILLETTE Safety Razor

THE USEFUL GIFT

If it were only the custom to tell your friends what you really appreciate as a gift, how many more men would own a Gillette—a really useful gift that constantly reminds the person to whom it is given of the giver's thoughtfulness—day after day, for at least the few minutes occupied by the most pleasant of shaves.

Make all your gifts USEFUL, with the Gillette heading the list where men are concerned. For men who already own a Gillette, the gift of a few packets of blades never fails to win appreciation.

Your jeweler, druggist and hardware dealer is showing Gillette Sets at five dollars. Christmas made for Europe will soon close.

Gillette Safety Razor Co. of Canada, Limited, MONTREAL 422

Less than 3 Weeks to Xmas.

We also have a new stock of Saddles.

The BOW ISLAND SADDLERY
Diamond Tires and Auto Accessories,
W. J. OLIVER, Proprietor.

Local and General.

Mr. P. Laulke of Fairview, Mont., is staying in town a few days the guest of Mr. and Mrs. R. C. Laulke.

A meeting of the Women's Institute will be held on December 21st. Will members please keep the date in mind. This meeting will be held providing the present epidemic restrictions are removed by the above date.

A letter has been received by the Bow Island Women's Institute from the Rev. E. F. Bishop, secretary of the Child's Welfare League, acting under the Social Service League of Alberta, with headquarters at Edmonton, thanking the members of the Institute for their donation of \$50 collected at a "tag day" held in Bow Island on September 28th last. The rev. gentleman states he thoroughly appreciates the gift and the spirit of the members in undertaking the collection, and hopes to pay Bow Island a visit in the very near future.

Dr. Ross of Coleman came down on Sunday last to give medical advice to Mrs. H. Murray, who has been very ill for some time. He found her condition to be such that he decided her removal to a hospital imperative, and accordingly when he returned on Monday he took her with him and placed her in the hospital at Coleman where it is to be sincerely hoped that she will soon recover.

Word reached Mrs. Lindke yesterday that Mrs. Murray had undergone a successful operation and was progressing as well as could be expected.

The members of the Women's Institute hope to have a meeting just as soon as the present circumstances will permit.

Miss Isabel Whitney has been knitting a sweater which she proposes to raffie off for the benefit of St. Dunstan's hospital, London, England, which is badly in need of funds. The sweater will be on view next week in Mr. Harford's furniture store, and tickets for the raffie may either be obtained there or of Miss Whitney. The object is a most deserving one and should elicit the sympathy of a large number of the townspeople in Bow Island.

A marriage took place on Monday at Lethbridge between Mr. W. D. Porter of Bow Island and Mrs. Lydia Esther Helmick of Great Falls, Mont.

Mr. and Mrs. F. Brophy left on Monday for Vancouver where they will reside during the winter months.

Mr. W. Firth arrived in town yesterday from Toronto looking very smart in his military uniform. He will probably stay here for a few days previous to leaving for Yorkton, Sask., where he has been offered a position in the Bank of Montreal.

By theft and industry the French

people paid over the huge war indemnity of 1870 to Germany in an incredibly short space of time. The same thrift and industry, if exercised by Canadians now, will reconstruct and make Canada a prosperous country. To achieve this end there must be individual vigilance. Watch food advertisements. There is always a best and cheapest place to buy any commodity. By watching the advertisements of foodstuffs in local papers, much can be accomplished. Merchants do not advertise unless the price and quality of the goods are attractive; they know they cannot retain the business of the public unless they "make good." Help the most progressive merchant in your locality by following his advertised prices and patronize him. Competition does more to regulate prices than anything else.

The M.W.A. will meet in the I.O.G.F. Hall on Monday, December 18th. Members please attend.

Special prices are being offered at Hoaglin store on quilts, fancy chinaware, etc., just the thing for Xmas.

The Maycroft School recommenced on Tuesday of last week.

A spell of sharp wintry weather set in on Tuesday and it looks as if the long term of mild weather we have been enjoying is now over.

W. W. Campbell of Burdett and T. A. Fairclairn of Bow Island have each placed an order for a Fordson tractor with R. S. Beattie for spring delivery.

Announcement was made in town the beginning of the week that the ban prohibiting meetings had been removed. This apparently was premature. The ban is still on and the Review is asked by Mr. John Pollitt, secretary of the Local Board, to announce the fact.

How these conflicting announcements originated is hard to say, but it probably lies in the fact that the Board equally with the citizens is anxious to restore the old order, and consequently as soon as the patients are free from the flu announce the lifting of the ban. Unfortunately some contrary people avail this order to immediately contract the epidemic and thus force the Board to again "shut down."

Look now as if the Board and the influenza are playing a great game of "hide and seek."

Mrs. Lucy Hoaglin received the sad news this week that her sister, Mrs. J. Slesman, of Heber City, Utah, had died on December 7th. Death was due to a stroke from heart trouble, brought on by worrying over her two sons, both of whom were wounded in France, one of them being shot completely through the body just above the heart. He, however, still lives and is expected home soon.

City Service Garage

A. E. TUNSTALL, Prop.
Free Air Station. Lethbridge Ave.

Mr. A. Abbott of Burdett received word this week that his son had succumbed to an attack of influenza.

Pete. S. M. Abbott left four years ago with the 10th Batt. from Lethbridge for France, and but a very short time previous to his death wrote his father saying how glad he was at the prospect of coming back.

The session of the Town Council last week was a short one and but

very little of public interest was transacted.

CAMPBELL-RASMUSSEN

On Wednesday, November 28th, Mr. Bert Roy Campbell of Burdett and Miss Johanna Rasmussen of Grassy Lake entered to the city and were united in matrimony by Rev. C. E. Craig at Wesley parsonage. Mr. and Mrs. Campbell expect to make their home in Burdett. (Lethbridge Herald)
